 - Circulation counts a library's patron's activity (checkouts and renewals). Therefore it includes *incoming* interlibrary materials, not *outgoing*.

 - Circulation division of Adult / Juv / Other is from the **Item Statistical Code**.

 - YA Statistical Codes are included with Juv.

 -N/A and Pass Statistical Codes are counted as "other". *

 - ILL includes MaineCat transactions, borrowing between MILS libraries, and Walk-in borrowing. If you do significant amounts of ILL outside of those means, you will need to add that number yourself. Incoming ILL (MaineCat) do not count renewals since they aren't available.

*It was noticed that some libraries have things like passes, equpiment, and Library of Things Item Material Types, but do not have matching Collection amounts. In future, if you want those counted, they need have the Collections and Statistical Codes updated. Submit a ticket if you need advice.

 Reports are based on the following reports, but pulled directly from the back end data using SQL:

 - Circulation and Outgoing ILL: Reports Manager>Patron Circulation to analyze patron code, transaction, patron, item libraries, and statistical code.

 - Incoming ILL: Simply Reports>Hold Statistics>ILL Requests Received to analyze transaction library.
