(see other side for notes regarding the data →)

NOTES:

- Circulation includes checkouts and renewals, including incoming interlibrary loans, but does not include outgoing interlibrary loans.
- Adult, Juvenile, and Other are determined by the Item Statistical Code. Because incoming INN-Reach transactions do not identify the item type, they are estimated using the same Adult/Juvenile/Other percentages as local and incoming MILS circulation.
- YA Statistical Codes are included with Juv.
- N/A, Pass, & Library of Things Statistical Codes are counted as "other". *
- ILL includes Patron Code 7 (ILL to Libraries), MaineCat lending, MILS lending, and Walk-in lending. If your library uses other ILL methods, those transactions must be added manually. Incoming MaineCat ILL does not include renewals because those statistics are unavailable.
- Some items in library collections do not have an Item Statistical Code assigned. Transactions for those items cannot be accurately categorized as Adult, Juvenile, or Other. To improve the accuracy of future reports, assign the appropriate Item Statistical Code to these items. If you need assistance determining which code to use, please submit a support ticket.
- Statistics are calculated directly from the Polaris database using SQL to match the Maine State Library Annual Report definitions. Therefore, totals may differ from standard Polaris reports.
 - Circulation & Outgoing ILL: Based on Patron Circulation Statistics, but calculated from the patron's perspective rather than the transaction library.
 - Incoming ILL: Based on ILL Requests Statistics.
